WISCONSIN, Southeast

WIZ046>047-051>052-056>060-062>072 **Marquette - Green Lake - Fond Du Lac - Sheboygan - Sauk - Columbia - Dodge - Washington - Ozaukee - Iowa - Dane - Jefferson - Waukesha - Milwaukee - Lafayette - Green - Rock - Walworth - Racine - Kenosha**

18	0000CST	0	0	Cold/Wind Chill
19	2359CST			

The second cold snap of December, 2005, was a contributing, or secondary factor (indirect) in the death of a homeless man in the city of Milwaukee. He was found frozen on a sidewalk in the downtown area in the early morning of December 19th. Media news reports indicated that some water pipes (outside faucet) froze on some homes across south-central and southeast Wisconsin. The average temperature across southern Wisconsin for the first 19 days of December, 2005, was the coldest since the cold December 1985. Across southern Wisconsin on December 18-19, 2005, maximum air temperatures were only in the teens and lows were around zero to 5 below zero, resulting in daily means around 15 to 17 below normal. In addition, cold temperatures occurred during the period of December 6-8, 2005, when daily means were around 20 below normal (maximum temperatures in the teens and lows of zero to 10 below zero).

WIZ062-067>068 **Iowa - Lafayette - Green**

26	2100CST	0	0	Dense Fog
27	1300CST			

Dense fog developed overnight, resulting in the delay of public school start times. Visibilities fell to 1/8 to 1/4 mile, especially in river valleys. The dense fog was a result of light southeast winds, a moist low-level atmosphere, and snow-melt.

WIZ058>059-062>065-067>072 **Dodge - Washington - Iowa - Dane - Jefferson - Waukesha - Lafayette - Green - Rock - Walworth - Racine - Kenosha**

27	1900CST	0	0	Dense Fog
28	0100CST			

Dense fog developed overnight over much of south-central and southeast Wisconsin, resulting in the delay or cancellation of some airline flights from Milwaukee Mitchell Field (Milwaukee County). Visibilities fell to 1/8 to 1/4 mile. The dense fog was a result of light southeast winds, a moist low-level atmosphere, and snow-melt.
